Pharmacy Program
Supporting Health Care Services for Indiana’s Hemophilia Community
“From the day my son was diagnosed with hemophilia, I have placed 100 percent confidence in the IHTC because of the way everyone treats my family.”
We understand your issues and needs.

Based upon years of experience, your comprehensive center team knows your needs. We are dedicated to your care. Our programs and services are designed with you in mind.

Our mission...

The IHTC is committed to providing the highest quality comprehensive health care services to patients with bleeding and clotting disorders, and to their families.

We are a program dedicated to all aspects of your care.
“Our family thinks it is very important to receive clotting factor and hemophilia health care from the same source. We are comfortable with the IHTC staff. We know that we are getting quality products with great customer service.”
Integrated medical management

The IHTC Pharmacy Program is an integral part of the center. The Pharmacy staff meets daily with treatment center staff. This open communication allows us to know and address your needs. This assures you that we are the first to recognize any issue and provide the access you need to your treatment team.
“Each time I visit the IHTC I am made to feel that I am their favorite patient.”
Your choice of the IHTC pharmacy program supports your comprehensive team and care delivered to the hemophilia community of Indiana.

The sale of clotting factor directly supports the IHTC team, patient services and programs. These services include many of the center’s care providers that you have contact with on a regular basis such as the telephone triage nurse, social worker, physical therapist, and dental hygienist. IHTC programs, including outreach clinics, camp, education in schools, daycare centers and to families etc., could not be accomplished without your support. The IHTC also provides support to and partners with Hemophilia of Indiana — another important activity accomplished through your choice of the IHTC Pharmacy Program.
“We selected the IHTC Pharmacy homecare program to support the center.”
Choice: The power of your choice

Every patient has the right to choose their homecare provider. The IHTC recognizes and supports your right of choice, and will assist you in making informed decisions. Your choice of the IHTC Pharmacy program supports your comprehensive center and helps us work together to make sure that your center is here for you today, tomorrow, and for all those in the community that may need us in the future.
“Using the pricing that the IHTC Pharmacy program offered, my insurance company was able to save money; it will take much longer to reach our insurance cap. It is a win-win situation.”
Cost: Making your coverage go farther & creating savings for insurance programs

An important part of our mission is to reduce the high cost of care for persons with bleeding disorders. The IHTC Pharmacy Program plays an important role in lowering cost of care. Our ability to purchase clotting factor through the Public Health Service discounted program, and our overall pricing structure pass savings onto you. This important benefit makes your insurance coverage go further and reduces total expense to the health care system. This is good for you, your employer, and the bleeding disorder community.
“The IHTC Pharmacy has excellent service. The emergency clotting factor order we requested was shipped out and received the same day! The cost was low and the staff was great.”
IHTC Pharmacy Program: the services you need when you need them - the highest quality homecare and responsiveness

Our experienced staff is available when you need them, 24 hours a day, 7 days a week. We offer the full range of products and supplies you need to make you independent. The IHTC Pharmacy Program has experience in resolving your insurance issues, and helping you bridge gaps in coverage. We are committed to providing you the best service.
“We receive excellent customer service from the IHTC Pharmacy with an emphasis on professionalism. We feel that as a whole the IHTC staff takes great pride in their programs as well as patients.”
Expert homecare delivered by your expert IHTC team, the most experience, the best care

Our Pharmacy staff has the knowledge and experience that provides you with the highest level of care. The IHTC has the most experienced team in the treatment of bleeding disorders in Indiana. You can be assured that we are committed and focused on your care.
The IHTC, as a member of the federal network of comprehensive hemophilia treatment centers, respects and supports your right to select the homecare agency of your choice.
